

Saving and paying for college

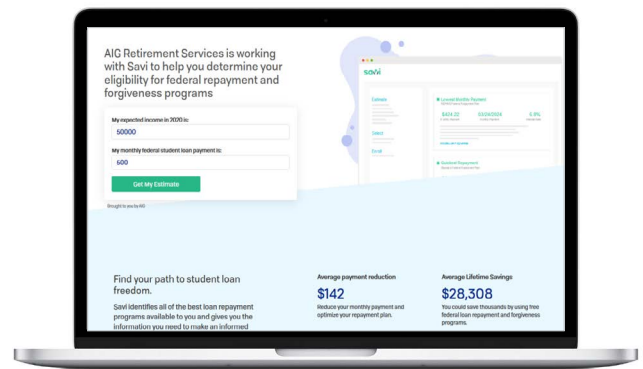

Step-by-step guidance for public service loan forgiveness

With an understanding of the student loan crisis and a passion for building brighter financial futures, AIG Retirement Services has engaged Savi – a social impact technology firm – to provide Student Debt Solutions, to help non-profit and public service workers take control of their student loans.

The goal is to improve and simplify the experience for non-profit and public service workers by providing an end-to-end digital process that helps:

- Determine qualification for student loan forgiveness
- Identify potential savings
- Navigate through enrollment
- Maintain eligibility
- Provide a clear path to applying for full forgiveness

You can also access their analysis of government rules concerning student loan debt, including new provisions in the CARES Act. If you are eligible and interested, for \$60 a year you can use Savi’s service to navigate the process for applying for public service loan forgiveness.

**You could lower your monthly payment to \$260,
a decrease of \$239.**

Just 3 steps to enroll in a plan to lower your monthly student loan payment and possibly save you money. First we'll check your eligibility and check your loan forgiveness options.
